SUMMARY

Final-year CSE student at AUST with one year of professional software development experience building production web applications using React, Next.js, TypeScript, and Express.js. Experienced in full-stack development, REST APIs, databases, and AI-integrated applications, with a focus on building reliable and user-focused software.

WORK EXPERIENCE

Software Developer | EZ Simple Consulting (Remote, USA-based Startup)
May 2025 - Apr 2026

- Developed and maintained production web applications for a gaming platform and an online voting system
- Built responsive user interfaces using Next.js, React, and TypeScript, emphasizing reusable components and consistent frontend behavior
- Collaborated with a distributed development team to maintain code quality and shared architecture across multiple interconnected projects

PROJECTS

FixMyDhaka | Visit Site | GitHub

Tech Stack: React, FastAPI, LangGraph, Gemini, SQLite, Leaflet, Tailwind CSS

- Built a full-stack civic reporting platform with interactive map-based submissions, image uploads, and persistent report tracking
- Implemented a LangGraph-based AI pipeline integrating Gemini classification, jurisdiction resolution, and RAG to identify responsible authorities (DNCC, DSCC, DWASA)
- Developed a geospatial analytics dashboard with issue-density visualization, category filters, and reporting trends, alongside AI-generated complaint drafts and official reporting links

Dhaka Tesla Pool | Visit Site | GitHub

Tech Stack: Next.js, TypeScript, Node.js, Express, PostgreSQL, Prisma, JWT, Docker

- Developed a full-stack ride-pooling application with passenger/driver authentication, route-based matching, and role-specific dashboards
- Implemented transaction-backed seat-capacity enforcement, individual fare calculation, and controlled ride lifecycle transitions
- Designed REST APIs with JWT authentication, authorization checks, PostgreSQL persistence, and separate passenger/driver cash-payment confirmations

SKILLS

- Languages: C, C++, Python, Java, JavaScript (ES6+), TypeScript
- Frameworks: React, Next.js, FastAPI, Express.js, Node.js, Tailwind CSS
- Databases: PostgreSQL, MySQL, MongoDB, SQLite
- AI/ML: PyTorch, YOLO, LangChain, LangGraph, RAG
- Tools: Git, GitHub, Postman, Vercel, Render, Docker

EDUCATION

B.Sc. in Computer Science and Engineering| Sep 2022 – Expected Nov 2026
Ahsanullah University of Science and Technology
CGPA: 3.60/4.00

AWARDS & ACHIEVEMENTS

- 7th Place (Honourable Mention), Bangladesh Blockchain Olympiad 2026 | International Round Nominee, Hong Kong
- Champion, Programming Contest | Cefalo AUST CSE Carnival 2.0
- Runner-up, Software Exhibition | AUST CSE Carnival 4.0
- National Selection, Innovation Zone | Digital Device & Innovation Expo 2026 (ICT Division, Bangladesh)
